MOUNTAIN GREY

NORDIC NIGHT BLACK

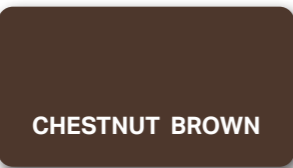

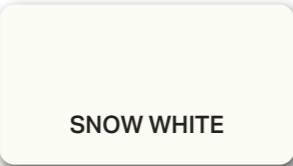

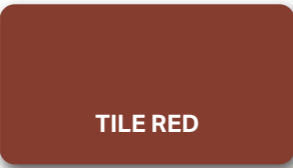

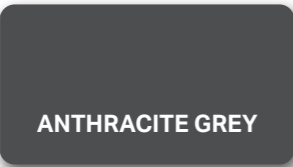

METALLIC DARK SILVER

## GreenCoat PLX Pural BT

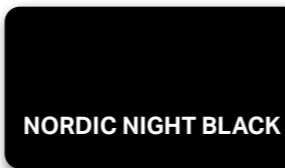

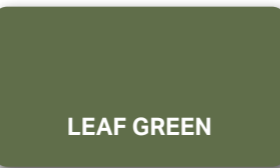

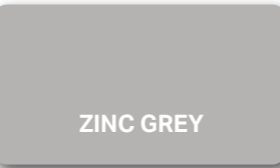

**GREENCOAT®**  
COLORFUL STEEL

Available In 15 Standard Colours

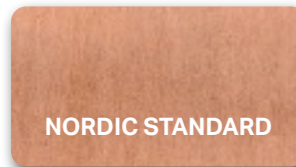

GreenCoat® colour coated steel products, from SSAB Swedish Steel, use Swedish rapeseed oil in the coating. Making them the most sustainable colour coated steels for exterior buildings worldwide.

The unique, patented BT coatings (Bio-based Technology) not only offers environmental advantages, but also increased performance. GreenCoat products are highly resistant to corrosion, UV radiation as well as scratches.

## Aurubis Copper

Also available in copper alloys, oxidised and patinated finishes, subject to minimum order quantities.

A natural copper that quickly weathers in the environment to a chestnut brown colour and finally (depending on location) takes on the distinctive green patina.

**Aurubis**

## Roofinox Stainless Steel

TIN-MATTE

CLASSIC

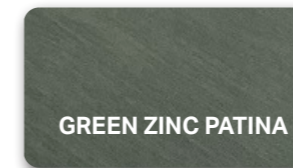

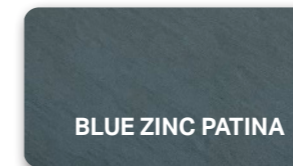

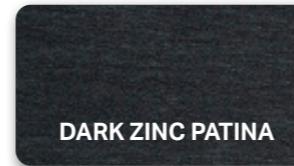

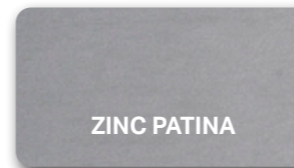

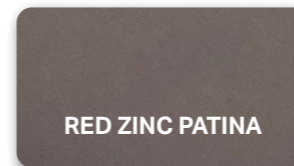

Roofinox stainless steel is made in Germany from approx 85% recycled material and is itself 100% recyclable. Unbeatable life span and virtually free of maintenance. Roofinox is available as standard in Tin-Matte electro-plated finish, which weathers to a lead grey colour and Classic finish, that retains its pleasing low reflective appearance. Other finishes are available subject to minimum order quantity.

**ROOFINOX®**  
Like no other.

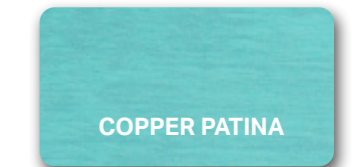

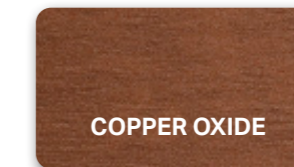

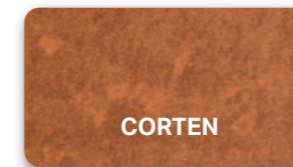

## Traditional Textures Aluminium

**Traditional TEXTURES**

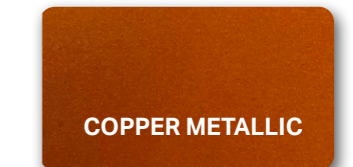

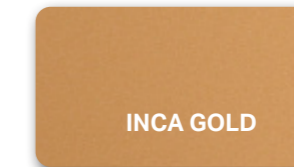

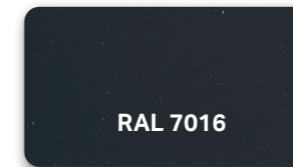

A range of precoated aluminium that captures the colour pigments and textures of real zinc & copper cladding, at a fraction of the cost.

Available in nine unique textured finishes, it is lightweight, easy to work, long lasting and eco-friendly.

## Non Textured Aluminium Coatings

Many other precoated aluminium finishes are available subject to minimum order quantity.
